

Teacher Workshop

Investigating the World: Using Archaeology Skills to Enhance Learning June 3-4, 8:30 a.m. to 3:00 p.m.

High Meadows School Teachers grades 3-8 are invited to join us for a workshop introducing the award-winning, inquiry-based PROJECT ARCHAEOLOGY curricula that engages learners and teaches four enduring understandings:

- Understanding the past is essential for understanding the present and shaping the future.
- Learning about cultures, past and present, is essential for living in a pluralistic society and world.
- Archaeology is a systematic way to learn about past cultures.
- Stewardship of archaeological sites and artifacts is everyone's responsibility.

Learn how to use scientific and historical inquiry to foster understanding of past and present cultures; improve social studies and science education and literacy; and enhance citizenship education to help preserve our archaeological legacy. Workshop participants will receive an archaeology education guide (shelter) that take students through an archaeological investigation.

Price: \$200 including lunch and teaching materials
Discounts available for groups of 4 or more.
